

APSACS Online Support Program

Guidelines for Parents & Educationists for effective implementation of OSP:

NOTE:

The main subjects focused in the OSP are English, Urdu, Mathematics & Science, there are written assignments given with these subjects.

The work on History, Geography, Social Studies & Islamiat is oral, reading assignments, level specific research work, or watching relevant videos, aimed at keeping students in touch with the subject without over burdening them.

The parents can make it a family bonding time through daily collective prayer times, stories about Prophet Mohammad, SAW, stories of Prophets and Prophet SAW's companions, discussions on values and beliefs, our country & national heroes, watching motivational videos. The parents may plan a daily family time like playing scrabble, drawing/art work, or learn practical life skills etc.

1. Online Support Program is facilitation; it does not replace school teaching. OSP is a proactive intervention to support students and parents in these trying and challenging circumstances.
2. The entire syllabus done on OSP will be properly revised by the teachers when the normal studies will resume in schools.
3. OSP can be accessed through smart phones, tablets, laptops and desktops.
